

# ECTOLAB

ASSOCIAÇÃO INTERNACIONAL DE PESQUISA LABORATORIAL EM  
ECTOPLASMIA E PARACIRURGIA

[www.ectolab.org](http://www.ectolab.org)

# Ectoplasm Research Proposal

## Luminosity

- Melatonin.
- Epiphysis.
- Sleep.
- Light and mood.
- Effect of colors in the CNS.

## Temperature

- Thermogenesis.
- Hypothalamus.
- Hibernation.
- Biothermology.
- Cryotherapy.

## Humidity of the air

- Thermogenesis.

## Ectoplasm

- Symptomatology.

## Clairofaction

- Reports from Dynamics.
- Neurophysiology of Smell.
- Biophysics of Smell.
- Pituitary / Hypothalamus.
- Aromatherapy.
- Pheromones.
- Olfactory illnesses.
- Cacosmia / Phantasm.

## Mediums – Biographies

- Phenomena.
- Frauds.
- Healthy.
- *Causa mortis.*

## Ectoplasm Research

- Materializations.
- Principal researchers.
- Methodologies.
- Conclusions.

## Symptoms - Physiology

- 50 symptoms / Physiology.
- SNP (parasympathetic).
- Parasympathetic nosographic.
- EEG hypnagogy / hypnopompy.
- Craniosacral therapy (physiotherapists).
- Acupuncture meridians / parasympathetic.
- Carbohydrates and parasympathetic (Nutrition).
- Hypoglycemic and parasympathetic (Nutrition).
- Acupuncture / parasympathetic (Acupuncture).
- Respiratory physiology (Pulmonologist).

## Symptoms - Physiology

- |   |                               |   |
|---|-------------------------------|---|
| 1. Thirst. <b>Hypothalamus</b>                          | 13. Dry cough.                | 26. Palpebral tremors.                              |
| 2. Hunger.  | 14. Hypersalivation.          | 27. Tearing.  |
| 3. Cold.  | 15. Thickened saliva.         | 28. Itches.   |
| 4. Trembling. <b>Hypothalamus/<br/>Thermoregulation</b> | 16. Dilatation of nostrils.   | 29. Diuresis.                                       |
| 5. Shivers.   | 17. Nasal rheum – sensation.  | 30. Tactile sensation of<br>touching a spiders web. |
| 6. Bristling of hairs.                                  | 18. Cacosmia                  |   |
| 7. Focal myoclonus.                                     | 19. Eructation.               |   |
| 8. Pressure on the palate.                              | 20. Nausea                    |   |
| 9. Ball in the throat.                                  | 21. Augmented peristalsis.    |   |
| 10. Itching in the throat.                              | 22. Ballooning.               |   |
| 11. Paresthesia on the back<br>of the tongue.           | 23. Corporeal vibration – VS. |   |
| 12. Phlegm.   | 24. Sleepiness.               |   |
|   | 25. Dizziness.                |   |

Cellular hypothesis – mitochondria.

Energosomatic hypothesis

– discoincidence / Parasympathetic.

Hepatic hypothesis.

Medullary hypothesis.

Psychic hypothesis.
