REURBEX: Planetary Reeducation

Definition

Parareurbanology is the subdiscipline of conscientiology that studies the **techniques**, the **assistancial maximechanism** and the **effects of multidimensional reurbanizations** (intrapysical and extraphysical reurbanization) on this planet. According to **Evolutiology**, specialty of conscientiology that studies **consciousness evolution**, evolution occurs through **interconsciential assistanciality**. Parareurbanology is a sub-field of **Assistantiology**.

SOCIN
Intrapysical Society

Intrapysical consciousnesses **lucid** about **extraphysical origin** and **multidimensionality**:

- Intermisivists
- Penta practitioners
- Residents of Cognopolis
- Assistancial consciential epicenter
- Permanintfree

Non-lucid consciousnesses or consciousnesses with **little lucidity** about the **extraphysical origin** and **multidimensionality**

- Reurbanized extraphysical consciousnesses
- Vulgar conscins
- Pre-serenissimus conscins

HOLOTHOSENIC INFLUENCE
HOMEOSTATIC OR PATHOLOGICAL

SOCIEX
Extraphysical Society

Advanced Extraphysical Communities

- Lucid consciousnesses
- Students from intermissive courses
- Helpers
- Evolutiologists
- Serenissimi

Pathological Extraphysical Communities (Baratrosphere)

- Post-desomatic paracomatose consciousnesses or non-lucid consciousnesses
- Blind guides
- Intruders

REURBIN
Intrapysical Reurbanization

Multidimensional sanitation of the crustal dimension and interdimensional mega-assistance, coordinated by Serenissimi

REURBEX
Extraphysical Reurbanization

Parareurbanology

Change for the better of environments and intraphysical communities through reorganization of degraded, poor and/or pathological urban areas, eliminating ghettos and stigmatized environments, providing infrastructure to the region, improving the physical, environmental and social quality of the surroundings and restored buildings.

Change for the better of unhealthy extraphysical communities and environments, anticosmoethically degraded, sponsored by Serenissimi, in order to sanitize the intraphysical holothosene of areas of the intraphysical societies over which there is anti-evolutionary and deleterious influence for Humanity.

Assistancial Maximechanism

EXTRAPHYSICAL COMMUNITIES AND ADVANCED EXTRAPHYSICAL TEAMS

ICCC
International Cosmoethical Conscientiological Community

Intermissivist conscientiologist

Cognopolis

Conscientiological complex, featuring multiple resources, aiming the knowledge of leading-edge relative truths of **Permanintfreeology**, **Evolutiology** and **Serenology** for pre-serenissimus beings, men and women, young, mature and elders.

Catalytic factors

- Clarification task and conscientiological teaching
- Advanced groupality
- Thosenic recycling
- Consciential epicenters qualified in interassistanciality
- Areas of energy support and continuous interassistanciality
- Restorative architecture and Bioarchitecture
- Sustainable development
- Consciential traits:
 - Communicability
 - Cosmoethicity
 - Openness-neophilia
 - Universalism
 - Pacifism
 - Cosmovision

Resistant factors

- Lack of catalytic agents or low level of quality and quantity of these agents.
- Environmental stigmas (wars, disasters ...)
- Social problems (drug trafficking, urban violence, poverty)
- Neophobia
- Worship of the past
- Baratrosphere Withdrawl Syndrome
- Warmongering
- Existential robotization

Consequences

- Renewal of intra and extraphysical environments
- Overcoming old stagnations/conflicts/pathothosenes
- Elimination of pathological ghettos (intra and extraphysical), enabling intraconsciential recycling
- Migration flows
- Resoma of baratrospheric consciousnesses - reurbanized consciousnesses
- Increase in terrestrial population and intraphysical violence due to resoma of reurbanized consciousnesses
- Transmigration of consciousnesses
- Renewal of intra and extraphysical holothosenes, favoring the renewal of interconsciential relations and personal recycling
- Reconciliation between ethnic groups and pacification
- Challenges for intraphysical communities: difficulties transformed into opportunities
