**Evocation of  
Serenissism**

**Refinement of  
thosenity**

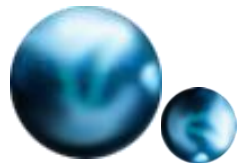

# Ortopensatas (Vieira, 2014)

- \* An improvement in the **intraphysical holothosene** occurs where the Serenissimus Being is reborn, frequently even before their resoma.
- \* If a person studies the structure of **human serenity**, it changes their own life for the better.
- \* Many pre-serenissimi, men and women, already present indications of Serenology, however they do not have **self-awareness** of this evolutionary condition.

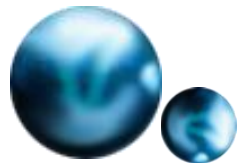

# Ortopensatas (Vieira, 2014)

- \* The **foundation of Serenology** is based on the self-confidence and assistantiality of the consciousness.
- \* *Serenology signifies self-satisfaction.*
- \* *One day, Serenissimi Beings will appear publically, just like stars, leaving the darkness of evolutionary anonymity.*

## Ortopensatas (Vieira, 2014)

- \* *A Serenissimus Being breaks their anonymity when they are interested in performing more ample clarification. Intermisivists already possess insinuations or glimpses of serenism.*
  - “How about you assume this condition, starting to research it?”
- \* *A Serenissimus Being Always acts in **resonance** with the flows and reflows of the Cosmos, knowing how to employ the immanent energies.*

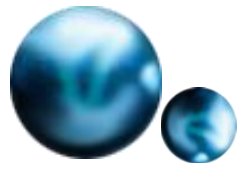

## Ortopensatas (Vieira, 2014)

\* – *“Which more evolved ideas sprout in your consciential microuniverse?” Have you already thought, that there could be the finger of the Serenissimus Being there. Every intermissivist had some contact, even if fleeting, with some Serenissimus Being.*

\* When a consciex Serenissimus resomas it is as if the sky were transformed into an ocean.

**Because of my own  
experiences.**

**I will explain...**

- January 23, 2016 in Australia: I had a free plane trip for a weekend to a place of my choosing.
- I had my boarding pass, row 24, I think it was, and I was boarding the flight ... at the gate, my row was changed to 13 at the last minute (something unusual and surprising in Aus.).
- If you know Dr. Vieira and his remarks about the number "13" and travelling, then you will know that this is an indication that things are going well.
- Oh, and the time of arrival: 1115

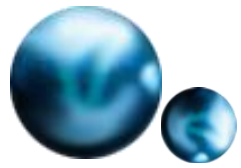

- I was seated next to a exchange student from southern Germany (Heidelberg), which made me think of Reurbanizer (Serenissimus).
- Anyway, we arrived, the energies in the town were very pleasant. People were calling me "love." For example, "Hello love", "Can I help you love?" And so on. Even the man at the car rental office let it slip – which was a surprise to both of us.
- After a nice lunch and an enjoyable walk along the jetty, with a gentle warm breeze blowing (zephyr).

...

- I started driving to the hotel.
- I passed one road and the clear idea came "take the next left" ...
- So I did, with my expectations slightly increased ...
- And it was a normal residential street, without anything of note, except ...

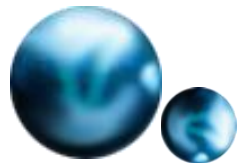

# On New St

- This unleashed a prolonged energetic shower and I should admit some euphoria.
- Note: the name of the street I turned on to was "New St."

# Main entrance to the building

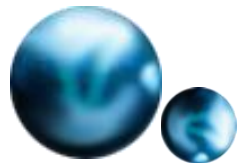

And on the other side of the road

- After about 15 minutes I started to drive towards the hotel again, and after about 5 minutes I saw this street sign...

# Zephyr St

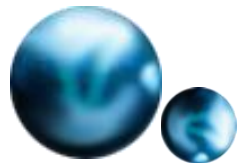

- And just after that, this park...

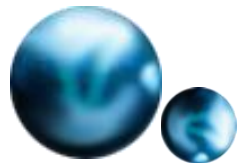

**APEX PARK**

- So, 3 terms that mean something important in scientology with a very small área.

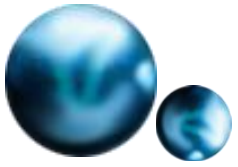

## And after...

- I wasn't sure what to do with the information
- Different experiences when sharing the experience with others (Energetic Showers, or not)
- 2nd trip / visit (22-23 January 2018):
  - Seeking to verify
  - Projections (7 lucid OBEs in 1 night)

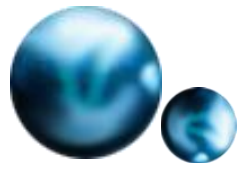

From  
one of  
the  
hotels in  
the  
region  
(2nd  
trip)

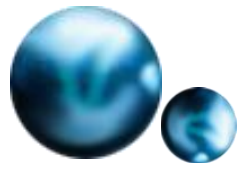

# Also in this small town...
